

Cena di Gala

In occasione del GIC avrà luogo una cena di gala per gli espositori e la loro clientela. Collateralmente alla fiera verrà organizzata la seconda edizione degli **ICTA Italian Concrete Technology Awards** che si terrà presso la bellissima Sala degli Arazzi del Collegio Alberoni di Piacenza, struttura che offre anche una ricca collezione artistica e museale visitabile dai partecipanti all'evento.

Gala Dinner

On the occasion of the GIC show there will be a gala dinner for the exhibitors and their customers. Alongside with GIC, the ICTA Italian Concrete Technology Awards event will be held in the beautiful Hall of Tapestries of the Alberoni College in Piacenza, a structure that also offers a rich art collection and a museum which will be open to all participants to the event.

Conferenze e Seminari Tecnici

Collateralmente alla parte espositiva del GIC è previsto un ampio programma di convegni, workshop e seminari di grande interesse e attualità, la cui organizzazione sarà curata da primarie Associazioni e Istituzioni. Queste iniziative costituiscono, infatti, un importante momento di aggiornamento professionale, presentando nuove normative, tecnologie innovative ed anticipando le tendenze del mercato anche grazie alla collaborazione di alcune grandi aziende espositrici.

Conferences and Technical Seminars

Alongside with GIC there will be a wide program of conferences, workshops and seminars of great interest and relevance, whose organization will be looked after by leading associations and institutions. These initiatives are in fact an important opportunity for professional development, introducing new regulations, innovative technologies and anticipating market trends, thanks to the cooperation of some big exhibitors.

Focus espositivo dedicato alle macchine, attrezzature, materiali e tecnologie per la posa, la manutenzione e il ripristino delle pavimentazioni in calcestruzzo.

Exhibition focus on machines, equipment, materials and technologies for laying, maintenance and restoring of concrete floors and pavements.

Area espositiva tematica dedicata alle macchine, attrezzature e tecnologie per la demolizione, la decostruzione, il riciclaggio delle strutture in cemento armato e il trasporto degli inerti.

Thematic exhibition section dedicated to machinery, equipment and technologies for demolition, deconstruction and recycling of reinforced concrete structures and transport of aggregates.

PRODUCT SECTORS

1. Alkali-resistant steels
2. Additives and binders
3. Aggregate processing plants and equipment
4. Aggregate washing equipment
5. Aggregates (production and sale)
6. Aggregates (production and trade)
7. Associations
8. Bulk cement tank trailers
9. Cement plants
10. Concrete and grout
11. Concrete compaction equipment
12. Concrete curing equipment
13. Concrete cutting saws
14. Concrete flooring joints
15. Concrete paving equipment
16. Concrete pumping accessories
17. Concrete pumps (truck-mounted and fixed)
18. Concrete screeding equipment
19. Concrete steel reinforcement
20. Concrete trowel machines
21. Concrete vibrators
22. Consulting and engineering companies
23. Control and automation systems
24. Conveyor belts
25. Cracking equipment
26. Curb machines and equipment
27. Drilling and weighing systems
28. Ebers for concrete reinforcing
29. Fixed and mobile concrete batching plants
30. Feed hoppers for concrete distribution
31. Floor grinders
32. Floor polishing equipment
33. Formworks
34. Grout injection pumps
35. Grouts
36. Insulating materials and coatings for concrete
37. Machinery and equipment for demolition, cutting and curing of reinforced concrete
38. Machinery, equipment and technologies for concrete pavement and flooring
39. Machinery, plant and equipment for the production of blocks, manholes, pipes, tiles
40. Machinery, plant and equipment for the production of concrete precast elements (walls, floor, slab)
41. Machines, systems and equipment for lifting, handling and transportation of concrete products
42. Mixers
43. Mobile volumetric concrete mixers
44. Molds and formwork for precast concrete
45. Nozzles for pipes, manholes, blocks, tiles
46. Parts and accessories for precast concrete
47. Pigments for concrete and concrete
48. Pre-mixed quartz
49. Processing equipment
50. Products of precast concrete and concrete products
51. Production of tiles for precast elements
52. Rebar equipment
53. Rebar processing machinery and equipment
54. Reinforced concrete refurbishing equipment and technologies
55. Reinforcing steel for concrete
56. Release agents
57. Resin and polyurethane coatings
58. Self-loading mobile mixers
59. Service and maintenance firms
60. Shot blasters
61. Silos and storage systems
62. Software houses
63. Special binding products
64. Specialised for walls and formworks
65. Split-belt equipment
66. Surface treatment for concrete floors
67. Systems and accessories for mounting, connecting, fixing and anchoring of concrete elements
68. Systems and plants for water and sewage treatment
69. Systems for transport and distribution of concrete
70. Technical publishing
71. Technologies for packaging of concrete products
72. Testing equipment
73. Tower cranes
74. Truck mixers
75. Usability control systems
76. Universities and research centers
77. Vibrating screens for aggregates
